

COVID – 19 Policies – effective until August 8, 2021

As New Yorkers we should all understand that rules and policies related to COVID-19 are continually evolving. Many of what can and cannot be done in youth soccer is dictated by NY State, which can change with very little notice.

ENNYSA Return to Soccer Activities is also guided by the best practice guidelines from U.S. Soccer PLAY ON initiative. We encourage everybody to visit <https://www.ussoccer.com/playon>, review the guidelines and take the pledge.

Travel guidelines for Tournaments

Travel guidelines require all New Yorkers as well as those visiting from out of state, to take personal responsibility for compliance in the best interest of public health and safety.

1. If teams wish to travel to contiguous states, individuals are not required to quarantine; however the ENNYSA **Online Traveler Health Form** must be filled out.
2. If teams wish to travel to non-contiguous states, the **Online Traveler Health Form** must be filled out and the mandatory 10-day quarantine must be followed.
3. Travelers may ‘Test-Out’ of the 10 day quarantine. See ENNYSA website for details and for Online **Traveler Health Form**

Indoor/Outdoor Capacity Restrictions

- Responsible Parties must ensure that for any indoor sport or recreational activity, capacity is limited to no more than 50% of the maximum occupancy for a particular area as set by the certificate of occupancy, inclusive of employees and patrons/players/spectators. o Responsible Parties must limit spectators to no more than two spectators per player.
- Responsible Parties must ensure a distance of at least six feet is maintained among individuals at all times, whether indoor or outdoor, unless safety or the core activity (e.g. practicing, playing) requires a shorter distance. If a shorter distance is required, individuals must wear acceptable face coverings, unless players are unable to tolerate a face covering for the physical activity (e.g. practicing, playing); provided, however, that coaches, trainers, and other individuals who are not directly engaged in physical activity are required to wear a face covering.

The social gathering limit is not the controlling limitation for these activities. The limit is the lesser of 2 spectators per player or 50% maximum occupancy indoors/space required such that all spectators can maintain six feet of separation outdoors (e.g., roughly 100 square feet per person).

Criteria for Return to Play

ENNYSA is recommending the following criteria to educate its members on CDC guidelines, New York State Department of Health, and US Youth Soccer Guidelines to maintain a healthy environment once players, coaches, volunteers, and spectators return to the field:

- ❖ Participants should have no sign or symptoms of COVID-19 in the past 14 days and have not been exposed to someone that has been ill in 14 days.
- ❖ Live in a general location for 14 days prior to beginning group training. This requirement reduces the risk of introducing COVID-19 into the training group by someone traveling from a different region.

❖ **Common Symptoms:**

- o Trouble breathing
- o Pain or pressure in the chest that persists
- o Experience confusion or trouble waking up
- o Bluish lips or face

❖ Take temperature at home before going to training.

❖ Upon arriving at training, coaches or staff should ask each athlete if they are experiencing any signs or symptoms of COVID-19. If the athlete has any signs or symptoms of COVID-19 they should be sent home and instructed to contact their health provider. Players will not be allowed to return to training until they are cleared by a healthcare provider. A doctor's note must be provided to return to training

❖ Participants, organizers, spectators, volunteers and facility employees in high risk categories should not participate or attend organized sport activities. List of high risk categories can be found <https://www.cdc.gov/coronavirus/2019-ncov/need-extra-precautions/people-at-higher-risk.html>.

❖ Small group training should take place in an area where physical distancing (6 ft. apart) can be maintained.

❖ Spectators, nonessential visitors, staff, volunteers and activities involving external groups or organizations should be limited as much as possible. Clearly designate and mark spectator viewing sites to allow for social distancing. All must practice social distancing including wearing face coverings.

❖ Be sure appropriate infection prevention supplies (i.e. hand sanitizer, facial tissues, facial coverings) are present in multiple targeted areas.

❖ Each participant will be required to have their own water bottle, towel, and personal hygiene products:
o Hand sanitizer should be readily available and must contain at least 60% alcohol
o Face coverings can include masks, scarfs, and bandanas over nose and mouth

❖ NO sharing personal items. Participants should use their own equipment and instructed to sanitize their equipment after each training session.

❖ Coaches and spectators will be required to wear face coverings when within 6 feet of others.

❖ Practice respiratory etiquette by covering coughs and sneezes with tissue or inside elbow.

❖ Tissues, wipes or disposable gloves must be properly disposed in the appropriate receptacles.

❖ Follow cleaning schedule protocol of equipment (cones, goals, etc.) with disinfectant before, during and after use.

USYS Recommendations for COVID Positive Case

• When a member is showing symptoms, or thinks they may have contracted the virus, their Club should direct that person to be tested and follow up with their local or state health department.

Players with symptoms or having been exposed to anyone with the virus should not participate in team activities until they receive a negative test result.

- Any player that tests positive or has been in contact with a person that tests positive, should be removed from training. That player, and all those that have been in contact with them should self-quarantine. according to CDC and local health guidelines.
- When a member has tested positive and the case is confirmed by local health officials, all members of the Club and their families should be notified that a member of the Club has tested positive.
- The Club should not identify the individual, but rather leave that communication to local health officials.
- All members should follow their local or state guidelines for contact tracing and quarantine requirements.
- Clubs, in cooperation with their local health department, should clean and sanitize their entire facility. Clubs should work with local health officials to determine when their facility can be reopened.

Responsibilities for Safe Return to Play

Club Responsibilities

- ❖ Create and distribute protocols to its members.
- ❖ Contact any additional insurers if your club holds any policies outside of what is included in your Eastern New York Youth Soccer Association's membership to ensure all coverages.
- ❖ Post signs in highly visible locations (i.e., at entrances and exits, and in restrooms) that promote everyday protective measures and describe how to stop the spread of germs such as by properly washing hands and properly wearing a cloth face covering – Corona Disease 2019 (COVID-19)

Return-to-Play Guidelines

- ❖ Maintain a complete list of coaches, youth athletes, and league officials present at each event to include the date, beginning and ending time of the event, name, address and phone contact to be made available upon the request from the local health department.
- ❖ Clean and disinfect frequently touched surfaces on the field surface at least daily, or between uses as much as possible. Use of shared objects and equipment should be limited or cleaned between uses by each individual if possible.
- ❖ Have an effective communication plan in place, identify strategies for working with public health to notify adult leaders, youth and their families if the organization learns a player or coach has contracted COVID-19 and may have been infectious to others while at a youth activity, while maintaining confidentiality.
- ❖ Be sensitive and accommodating to parents that may be uncomfortable with returning to play too quickly.
- ❖ Train and educate all staff to protocols and requirements, including state and local regulations, CDC recommendations and other necessary information.
- ❖ Be prepared to shut down and stop operations. Develop plans for temporary closure of indoor facilities and cancel outdoor activities or camps to properly disinfect and ensure other adult leaders or youth are not infected.
- ❖ Provide adequate field space for social distancing.
- ❖ Provide hand sanitizing stations and waste receptacles at fields.
- ❖ Develop a relationship and a dialog with local health officials. (identify Risk Tolerance)

Coach Responsibilities

- ❖ Ensure the health and safety of all players.

- ❖ Inquire how the athletes are feeling, send them home should you believe they act or look ill.
- ❖ Follow all state and local health protocols.
- ❖ Ensure all athletes have their individual equipment (ball, water bottles, bag, etc.)
- ❖ Coach is the only person to handle all practice equipment. (cones, disk etc.)
- ❖ Coach to sanitize/clean all personal training equipment before and after each session (e.g. cones, discs, etc.)
- ❖ All training should be outdoors and ensure social distancing per state or local health guidelines.
- ❖ Always wear a face mask, when not actively coaching, maintain social distance requirements from players based on state and local health requirements.
- ❖ Have fun, stay positive – players and parents are looking to you to stay calm, supportive and caring during this time.
- ❖ The use of scrimmage vests or pinnies is not recommended at this time

Parent Responsibilities

- ❖ Ensure child is healthy and check your child's temperature daily.
- ❖ Limited or no carpooling with other players.
- ❖ Stay in the car or adhere to social distance requirements, based on state and local health requirements.
- ❖ When at practice wear a mask outside your car.
- ❖ Ensure child's clothing is washed after every training session.
- ❖ Ensure all equipment, cleats, ball, shin guards etc. are sanitized before and after every training.
- ❖ Notify member organization immediately if your child becomes ill for any reason.
- ❖ Do not assist coaches with equipment before or after training.
- ❖ Be sure your child always has sanitizer with them.

Player Responsibilities

- ❖ Take temperature daily.
- ❖ Wash hands thoroughly before and after training.
- ❖ Bring and use, hand sanitizer with you to every training.
- ❖ Wear masks before and immediately after all training.
- ❖ Do not touch or share anyone else's equipment, water, snack or bag.
- ❖ Practice social distancing, place bags and equipment at least 6 feet apart.
- ❖ Wash and sanitize all equipment before and after every training.
- ❖ No group celebrations, no high 5's, hugs, handshakes etc.

Recommended by CDRef and implemented at AGM – 08/9/2020

1. Home facility must have a field marshal at every game that reports to the referee before every game. This field marshal will be in charge of maintaining crowd control. Any person getting any closer than 10 feet to a referee will be escorted to their car. Anyone who refuses to leave or causes a scene, their name will be given to the field marshal and that person will be banned for the rest of that season.
2. Game day rosters and passes will be on one paper, given to the referee before the game starts.
3. Everyone involved in pre-game ceremony (coin toss) must wear a mask, referees included.

4. Any player or coach approaching a referee closer than 6ft to complain during a game (dissent) will be given a yellow card. Anyone after the game will be given a red card.
5. All game balls (5) per game, must be wiped down before the game is started in front of an official and left at centerfield, properly checked for air pressure.
6. Only players or coaches touch the ball (no ball persons for any games), if someone does touch a ball it must be wiped down before putting back in play.
7. There will be no club linesmen for any games. If there is an age group that might require a three-man system, all the certified linesmen will have their own flags.

Implemented prior to 20/21 Travel Registrations:

8. CDYSL requires clubs to have a COVID waiver and liability release on file that includes CDYSL and member clubs as affiliated parties and that the document be uploaded into the Got Sport system for every player.
9. Implementation of a mask policy for all players on the field for all 2021 CDYSL Spring League games.
